Pet's age: {AnimalAge} **Sex:** {AnimalSex}

Surgical Procedure being performed today:

When did {AnimalName} last eat?

Please list all medications that {AnimalName} is currently taking, and when last dose was given:

CONSENT FOR ANESTHESIA

I hereby consent to the use of anesthesia and any therapeutic drugs deemed proper by the veterinarian. I understand the inherent risks of a surgical procedure and agree that I will not hold Fredericksburg Equine & Small Animal Veterinary Services, veterinarians and/or staff, responsible for any surgical or post- surgical complications. _____ (initial)

AUTHORIZATIONS AND PREFERENCES

PRE-ANESTHETIC BLOODWORK

A pre-anesthetic blood screen includes a panel of chemistries checking the liver, kidneys, glucose, and total protein levels. This screening includes a CBC (complete blood count) to check for abnormalities in the red and white blood cells. We recommend pre-anesthetic screening to ensure your pet is healthy before undergoing anesthesia. Pre-anesthetic bloodwork is optional (for patients under 7) but highly recommended for all patients. = **\$89.00**

I **ACCEPT** or **DECLINE** pre-anesthetic bloodwork.

IV CATHETER AND FLUIDS

An IV catheter and fluids provide valuable cardiovascular support for patients under anesthesia and promotes post-surgery recovery. An IV catheter and fluids are optional (for patients under 7) but highly recommended for all patients. = **\$49.50**

I **ACCEPT** or **DECLINE** an IV catheter and fluids.

DENTAL FINDINGS

During teeth cleaning procedures, unexpected finding often occur within the pet’s mouth. Examples of this include diseased or infected teeth that need to be extracted and/or oral growths or tumors that need to be surgically removed. We will make every effort to contact you to inform you of any abnormal findings resulting in the change in the cost of treatment. Additional costs may vary depending on the difficulty of extractions, etc. (See estimate for price levels.) **In the event we cannot reach you to discuss abnormal dental findings:**

_____ **I authorize** for the doctor to proceed with necessary extractions or tumor removals. I understand that additional costs may be incurred.

_____ **I do not authorize** the doctor to proceed with dental extractions or tumor removals if I cannot be reached via phone.

CARDIOPULMONARY RESUSCITATION (CPR)

In the unexpected event of cardiopulmonary arrest, resuscitation (CPR) techniques may be used if approved by client. These techniques would only be used in the event of a life-threatening situation. = **\$300**

I _____ **ACCEPT** or _____ **DECLINE** cardiopulmonary resuscitation in the event of a cardiac emergency.

TAKE-HOME PAIN MEDICATION AND ANTIBIOTICS

Injectable pain medication will be administered to every patient undergoing a dental procedure (included in dental cost). Depending on dental findings, the doctor may also prescribe take-home pain medication and antibiotics. The cost of take-home pain medications and antibiotics is not included in the dental price. _____ (initial)
